

Save Mahim Nature Park

0 have signed. Let's get to 2,500!

[Aaditya Thackeray](#) started this petition to [Chief Minister of Maharashtra Devendra Fadnavis](#) and [2 others](#)

The Government of Maharashtra has been planning for the redevelopment of Dharavi for years. Suddenly on 5th March 2018, it has asked for suggestions & objections to its proposal of using the Mahim Nature Park for creating housing.

Mahim Nature Park has been created after closing a waste dumping ground. It has more than 500 varieties of plants, more than 125 varieties of birds and 85 kinds of butterflies and is an educational experience for school students to interact with flora fauna.

We must ensure that this green space is not usurped and destroyed in the name of “development”
